Our Sustainable Focus

Current Company Initiatives

PRODUCTION

For many years we have set ourselves ambitious goals to promote climate and environmental protection at KRAIBURG TPE in the long term.

PRODUCT

We produce TPE compounds for high-quality and durable applications. Here we also focus on sustainability.

20% reduction in specific water consumption since 2012

12 % Reduction in specific energy consumption since 2012

Increase of emission-free own power generation by means of photovoltaics

Reduction of specific gas consumption by 35 % since 2013, e.g. by using waste heat from production process

Use of recyclable packaging material for raw materials

Integration of recycling processes in the production process

TPE with bio-based raw material proportions of up to 90%

TPE can be recycled

No use of palm oil

Preparation of start-up and shut-down materials in one single grade in original goods

Use of plastic recyclates

Use of post-industrial recycling material

Use of recyclable and transport optimised optimized packaging material for our finished goods
