KRAIBURG TPE Enhancing Safety and Performance for Ladder Stopper

Ladder stoppers serve as indispensable safety components, ensuring stability and security during ladder use by preventing slips and slides. Recognizing the critical role these devices play in user safety, KRAIBURG TPE, a global leader in thermoplastic elastomer solutions, introduces its cutting-edge TPE material designed to revolutionize ladder stopper manufacturing.

Introducing the THERMOLAST® K GP/AP Series

The [THERMOLAST® K](#) GP/AP series from KRAIBURG TPE represents a significant advancement in ladder stopper material technology. Engineered to meet the stringent requirements of the [industry sector](#), this innovative TPE material offers unparalleled performance and reliability.

Key material advantages of KRAIBURG TPE's THERMOLAST® K series include:

- **Adhesion to PP** for secure attachment
- **Colorability** for customizable designs
- **Optimized mechanical properties** for enhanced durability
- **Optimized flow properties** for efficient manufacturing processes
- [Dry haptics](#) for improved user comfort
- **In-process recycling** capability for sustainable production practices
- **Injection molding** compatibility for streamlined manufacturing

These TPE materials from KRAIBURG TPE find ideal applications across various sectors, including function and design elements, handles for hand tools and power tools, soft touch surfaces for grips, switches, and mats.

KRAIBURG TPE (www.kraiburg-tpe.com) is a global manufacturer of custom thermoplastic elastomers. KRAIBURG TPE was founded in 2001 as an independent business unit of the KRAIBURG Group and is now the industry's competence leader in the field of TPE compounds. The company's goal is to provide safe, reliable and tailored products for customer applications. With more than 660 employees worldwide and production sites in Germany, the USA and Malaysia, the company offers a large product portfolio for applications in the automotive, industrial and consumer goods industries, as well as for the strictly regulated medical sector. The established THERMOLAST®, COPEC®, HIPEX® and For Tec E® product lines are processed by injection molding or extrusion and offer manufacturers numerous advantages not only in processing but also in product design. KRAIBURG TPE is characterized by its innovative strength, global customer orientation, customized product solutions and reliable service. The company is ISO 50001 certified at its headquarters in Germany and holds ISO 9001 and ISO 14001 certifications at all its sites worldwide.
